CLIENT TESTIMONIAL

"We have been hosting a technology investor conference in Vail since 2000. It started as a small intimate event at one hotel and has expanded into a program that spans three hotels and takes over Vail Village. We have been fortunate to work with three really amazing hotels, the Sonnenalp, the Four Seasons and The Sebastian. Each hotel has a unique feel that allows us to incorporate different aspects of our program across the three avenues for the benefit of our attendees without losing the intimacy our event had when we utilized only one hotel."
