

# WINTERTIME Bliss

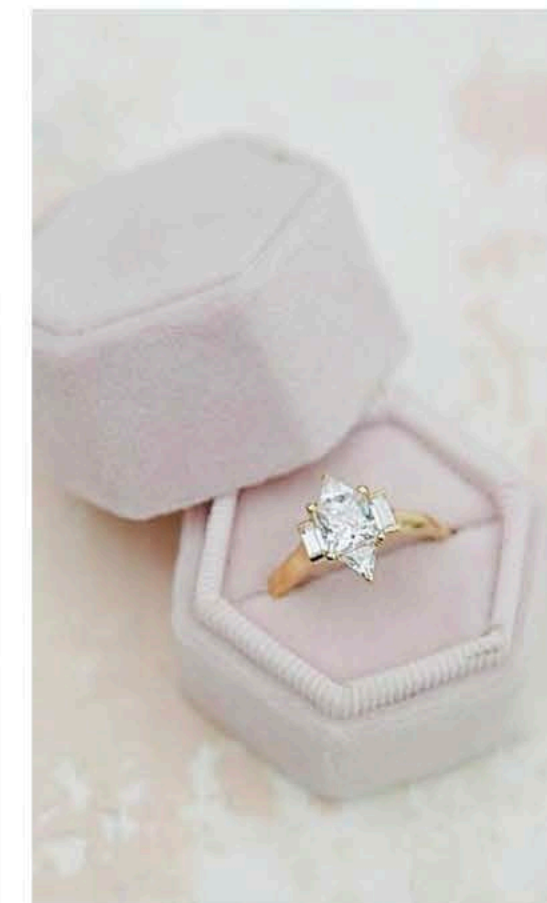

Inspired by vintage French champagne posters and their soft color palettes, this styled shoot showcases Vail's European charm at The Sonnenalp Hotel. The luxurious paper suite, created by Lucky Onion, features sophisticated calligraphy, rough edges and a variety of textures. Through the Old World details, guests are invited to join the couple for a timeless and elegant wintertime soirée!

#### SUBTLE STATEMENTS

The buttercream and pastel bouquet add a striking contrast to the bride's soft organza sleeves in a crisp and traditional white. Refined accessories and a statement engagement ring let the bride's elegance and grace subtly show through. To perfectly pair with the stylish bride, we find the groom in an ever-so-classic black suit topped with a velvet coat for the ideal winter look.

#### SOFT & DELICATE PALETTE

The reception design, impactful and breathtaking, is adorned with fabulous floral texture and eye-captivating layers. Ribbon wrapped menus complement the initial invitation, while the floral perfectly matches the bride's bouquet. Modern touches find their way in through the matte gold Skandia flatware, while the china combination and glassware stay true to the historic charm the wedding is styled after.

#### A TOAST TO FOREVER

An ode to the initial inspiration results in a perfectly sized champagne tower placed in a heirloom silver tray. The lemon twists and soft pink champagne continue to enhance the shoot's color palette and excite guests as they await their glass for a harmonious toast to the bride and groom!
